PREFACE

Genealogical record of 1,531 members of the Sherrill Family in America, showing a direct line connecting each one with **Samuel Sherrill**, who was born in 1639 and came to America in 1670, settling on Long Island, New York after being shipwrecked. He married Margarette Parsons and lived, reared at least three children; two of whom (Recompence and Samuel Jr.) with their families remained in that section of the country and it is believed, by some, that they represent the "Northern Sherrills", while William, with his daughter, who married John Perkins and his sons William, with his three children and Adam, with his eight boys, moved to Cecil County, Maryland then to Augusta County, Virginia in 1741 and to North Carolina and settled on the eastern side of the Catawba River in 1774. It is believed by some, that this William and his descendants represent the "Southern Sherrills" because they left Long Island and migrated southward to Maryland, Virginia, North Carolina, South Carolina, and later to Tennessee, Alabama, Mississippi, Georgia, Arkansas, Texas, New Mexico, Arizona, California, and Oregon.

William's son, Adam, had eight boys, namely: William Jr., Samuel, Uriah, Adam, Aquilla, Isaac, Jacob, and Moses. Adam, with his family of eight sons, moved westward crossing the Catawba River at a place which later became known as Sherrill Ford; and settled somewhere west of the Catawba. Adam later became known as the "Pioneer" and a large monument has been erected in his memory near the place where he crossed the river and it is now known as the Sherrill's Ford Post Office. Near this place there is an old cemetery, known as Sherrill's Cemetery, where only members of the Sherrill's family were buried; perhaps, because no one but a Sherrill or a Sherrill relative lived within a radius of one hundred miles of this community. This cemetery was surrounded by a stone wall; possibly six feet high and consisting of a few acres of land, is located on a hill top and once had many stone or marble grave markers. Today this cemetery can, with much difficulty, be visited and recognized as a very old burying ground. The stone wall has crumbled and disintegrated to a height of about eighteen inches. The land inside and around the cemetery is now a dense growth of timber and undergrowth. Pieces of grave markers of stone and marble can be seen, scattered about in the underbrush, with a few of the markers remaining in an upright position. Part of the inscriptions on pieces of some of these markers are still visible and a few names and dates can be recognized.

It is not surprising to find this old cemetery in its present condition as it has not been in use nor any care given to it during the past one hundred and fifty or two hundred years.

It is very interesting to glance over the index shown below, and see the ninety seven family names that make up this family, also the given names of so many being taken from the Bible. You will also note the many, many, repetitions of the given names, namely; there are five Adam Sherrills, thirteen Charlie Sherrills, twelve David Sherrills, thirteen Elisha Sherrills, fourteen Elizabeth Sherrills, twenty-one James Sherrills, thirty-nine John Sherrills, fifteen Margarette Sherrills, thirty-six Mary Sherrills, thirty Samuel Sherrills, twenty-seven Sarah Sherrills and many many others. This repetition of given names made it paractically impossible to place them in their proper places. I have checked and rechecked each and every name through his or her ancestors as well as the descendants and, no doubt, some errors still exist. Knowing the birth date of a person aided greatly in placing his name in the correct place. The information collected on about 500 members did not show their date of birth; so their birth date was arrived at by selecting some member of their family with a known date of birth and adding to, or subtracting from, a number of years in the following manner, namely; an average of its parent were added to or taken from a known date to find the age of its parent or the first born child; two years were added to or taken from a known birth date to find the ages of brothers and sisters.

I am sure that there are many errors still existing in my tabulation of the Sherrill Family and I hope that you will be kind to me in your criticism and that you will call my attention to any errors so that I can make corrections for future editions which should be about every 24 years. The second edition should be in 1985, on my 104 birthday.

In conclusion I wish to express my grateful acknowledgment to my mother, Margarette Franklin Sherrill, who began the collection of the names of her relatives long before her death in 1936; to my sister, Thelma Loomis, who continued the search until her death in 1952; and also to the late W. E. Sherrill of Haskell, Texas, for all the information I received from their records.

WALTER LEE KITCHENS, M. D.

The father of Walter Lee, Jr., and Sara Lee Kitchens, the grandfather of Ava, John, and Walter Lee Suttle, the son of Margarette Sherrill, the grandson of Finess Ewing Sherrill, the great-grandson of George Sherrill, the great-grand-grandson of Reuben Sherrill, the great-great-great-grandson of Aquilla Sherrill, great-great-great-grandson of Adam Sherrill, great-great-great-grandson of William Sherrill, great-great-great-great-grandson of Samuel Sherrill.

The above is a genealogical record of the Author of this Sherrill Record, showing his daughter, Sara Lee Kitchens and his three grand children; also his mother, Margarette F. Sherrill; his grandfather, Finess Ewing Sherrill, and his six great-grand-fathers. George, Reuben, Aquilla, Adam, William and Samuel.

A record similar to the above can be made on each of the other 1530 members of this family.

There may be, "Nothing New Under the Sun"—But, isn't this "Something New in Genealogical Recording?"

This book consists of twelve generations of the Sherrill Family in America and to Facilitate the checking of the ancestry of persons listed, I have placed their names according to their American generations in the following manner, viz.: A parent or person is placed in his generation "space" or "column" and his parents and grandparents, as well as his children and grandchildren are place in their respective places: For an example, see Adam Sherrill #92, who was born in the third American generation and had eight sons, all of whom are placed in the fourth generation. The first son, Captain William No. 93 is placed in the fourth generation, immediately following his father; then Captain Williams' descendants follow him through several generations, through No. 284. Next is listed the second son, Samuel, No. 285, who is, also, placed in the fourth generation and his descendants follow him through No. 307. The third, fourth, fifth, sixth, seventh and eighth sons and their descendants are similarly placed. Each one of the 1531 members of this family can be reviewed in the above manner.

Anyone named Sherrill, or in any way related to the Sherrill Family, should check to see if his or her name is shown in this tabulation of the "Sherrill Family". If it is shown in this compilation he can trace his family history back through several generations; through his parents, grandparents, and great-grand-parents. He can see the names of his uncles and great uncles, his aunts and great aunts, his nieces and nephews, his cousins, his brothers and sisters, children, grandchildren and great-grand-children. Should he not find his name listed in this "Sherrill Genealogical Record" I will be glad to do everything that I can to establish the connecting link in his Sherrill Family record if he will send me all the information he has about his family and a self addressed stamped envelope.
